---

John

The drinking water in the area is supplied by Baton Rouge and they are required to supply customers a water quality report once a year. The water does not come from the lake and is supplied from 3 wells.

**Subject:** Devil's Swamp Questions

Bart and Bill,

DHH received a few questions from the Associated Press.

- 1) What is the source of the mercury and PCBs? Does it have anything to do with Rollins?
- 2) How often do we/have we sampled the water in the area? Every year, every two years, etc?
